

Chapter 2 (Video Clip 2) – New Spare Tire

1. I decided it was time to replace the spare tire to match the 4 others tires on the car. The spare tire was either an original tire that came on the car or the first one that was purchased way back then so I wanted to document the tire of the day which had a tread ware of 80 and a temperature value of C.

2. The old tire size was a 5.60 X 15.

3. The old tire was a 4 ply Poly.
